

Introduction new Buhrs 3000 Compact System

The new Buhrs 3000 Compact

Buhrs will be present during Drupa at the W&D booth in Hal 16 A43. Buhrs will combine the Drupa show with an Open House event in Zaandam in The Netherlands, especially to present the new Buhrs 3000 Compact Wrapping System. While maintaining the characteristics like speed, quality and flexibility of the very successful Buhrs 3000, the new Buhrs 3000 Compact system, equipped with Servo feeders, has a much smaller footprint. Next to saving space, the Buhrs 3000 Compact requires less people due to the ergonomic positioning of the feeders. Buhrs will invite relations from all over the world for a 'live' demonstration of the new wrapping system at the factory, or show the Buhrs 3000 Compact on a video screen at the W&D booth during the exhibition in Düsseldorf. 'The distance between Zaandam and Düsseldorf is only 2,5 hours by car and many visitors will start their trip to Drupa at Amsterdam Schiphol Airport, only 20 kilometres from our Open House away', says Managing Director Dick Verheij.

About Buhrs

Buhrs is one of the leading worldwide provider of mailing, fulfillment and packaging solutions. The company develops, manufactures, sells and services systems for poly and paper wrapping, fulfilment and packaging applications. Buhrs' systems prepare media products, such as magazines, newspapers, documents, direct mail products, books and cards for distribution. Buhrs is partner to postal organisations, publishers, printers, binders, mailing houses, letter shops, banks, service bureaus, insurance and fulfillment companies and many other businesses, from medium-sized to large and leading. With a large installed base, Buhrs is well established and proud of its reputation for quality and reliability.

Headquartered in Zaandam - The Netherlands, Buhrs has a network of subsidiaries in Japan and France, as well as industry-qualified distributors to provide global coverage. Buhrs' long history goes back more than 100 years. Buhrs has been a subsidiary of the Hittech group.
