

Beijersbergen & Partners is moving

We are going to move and move in with AtéCé Graphic Products in Uitgeest and Alkmaar. This will take place in stages from December 14, 2020, so we will be fully operational again at the beginning of 2021, from our new working environments. What does our relocation plan look like?

Our office will be located in AtéCé's headquarters from 4 January 2021

Molenwerf 14
1911 DB Uitgeest
The Netherlands

This is also our new postal address, the PO box will be cancelled.

Our warehouse will be located in the AtéCé distribution center from 4 January 2021

Ivoorstraat 13
1812 RE Alkmaar
The Netherlands

Ink mixing service and laboratory

The relocation of our ink mixing plant and laboratory is the largest operation. The dismantling of our automated ink dispensers will start on December 14, 2020. The aim is to be fully operational again from January 11, 2021. The ink mixing plant and the laboratory will be housed in a new modern professional production location to be set up. This location will be expanded immediately. Another new automated ink dispenser is being installed. By joining forces with AtéCé and this expansion of the mixing capacity, we are able to mix offset inks for conventional, UV and food packaging compliant (Low Migration) applications. We also mix UV Flexo inks, which are only food packaging compliant. With the investment in a new ink dispenser, we are one of the largest mixing color suppliers of offset and flexo inks in the Benelux. The address of our new ink mixing and laboratory (diagonally opposite the AtéCé distribution and converting center) will be:

Ivoorstraat 4A
1812 RE Alkmaar
The Netherlands

Our telephone number remains unchanged: +31 33 455 75 01

Finally, we would like to inform you that we are very much looking forward to the start of the new year to be of service from our new workplaces within the AtéCé locations. As a team of Beijersbergen & Partners, we are happy to join our AtéCé colleagues.

We wish you happy holidays.

Sincerely,

Tom Kerssens

Technical Director & Key Account Manager (Pressroom - Benelux)
